

backframe

MADE IN EU design by KD

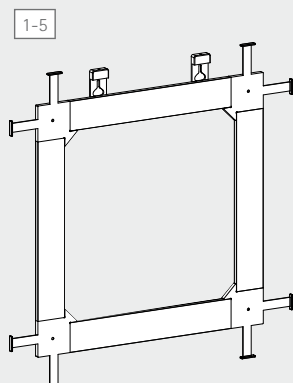

IT backframe provvede egregiamente al fissaggio, tra gli altri, di pannelli flessibili e sottili, come per esempio i semi espansi, il forex o l'alluminio, perché assicura una tenuta perfetta, semplice ed estremamente sicura. particolarmente pratico è il sistema di livellatura che backframe offre e che può essere regolato fino a 10 mm, in modo che il vostro pannello sia sempre appeso diritto in modo perfetto, senza dover riforare il muro per riattaccarlo. offriamo backframe come set completo nei formati più comuni; in caso di richiesta sono disponibili altre lunghezze per formati su misure.

DE backframe sorgt als ein befestigung v.a. für flexible, dünne paneele z.b. aus hartschaum, forex oder aluminium für die nötige versteifung. zugleich befestigt der backframe ihr paneel sicher und einfach. besonders praktisch dabei die nivellierung fürs aufgehängte paneel, die vertikal bis zu 10mm unterschied reguliert, so dass ihr paneel immer gerade hängt ohne neu gebohrt werden muss. wir bieten ihnen backframe als komplettes set für gängige formate an. ausserdem erhalten sie auch alle seitenlängen extra für weitere formate.

EN backframe is a mounting system especially for thin and flexible panels made of hard-foam, forex or aluminium. it helps to stiffen the panel, while mounting is easy and safe. the leveling system is particularly convenient for the mounted panel, that can even be up to 10mm, so that your panel will always be straight without drilling new holes. we provide you with complete sets for common formats. also available are all lengths extra to create new sizes.
